

INTELLEDOX PTY LTD

CORPORATE OVERVIEW

Intelledox Pty Ltd is an innovative software development company. Our products are specifically designed to ease the burden of organizational processes as we continually aim to provide an excellent value proposition for our clients.

Founded in 1991, Intelledox has successfully delivered high quality enterprise software solutions to the market both in Australia and overseas. Intelledox has an international presence across the globe, with offices and partners in Australia, Singapore, the UK and United States.

VISION & MISSION

Our **Mission** is to be the global leader in document creation technology and to assist our customers to maximize their business efficiency and minimize their business-as-usual costs.

Our **Vision** is to provide a disruptive technology that:

- Challenges the traditional approaches to document automation;
- Disputes the paradigm that paper-based forms must equal web forms; and
- Leverages the power of browser-based user interaction to streamline document creation.

In essence, we seek to fundamentally change the way people approach document automation.

OUR PRODUCT

Intelledox is a 4th generation intelligent document creation system that uses the power of smart web forms and optimum data connectivity. Intelledox addresses what leading analysts refer to as 'content chaos' caused by a lack of a structured and centralized approach to document generation. Intelledox creates significant business advantage through the automation of document-centric business processes. By leveraging existing investment in document management and information assets, Intelledox assists organizations to drive down operational costs, deliver increased efficiency, reduce compliance risk, and improve user experience.

Intelledox is proven to reduce document generation time and template management costs, significantly reducing the impact of content chaos within an enterprise.

FEATURES

- XML Server-side engine
- Microsoft® software-based design template
- Multiple output formats
- Optimal connectivity to corporate data repositories with push/pull capability
- Multi-language support
- Full audit trail and exception reporting
